***Examiners Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elizabeth Odell on 8/13/2009.

In claims 27 and 41 the words "a pin hole camera," should be deleted from the claims.

***Reasons for Allowance***

Claims 26-50 are allowed. The Prior art of record does not contain the combination of the following features, generating a synthetic 3-D model of an area around a center of the scene by combining the geocoded reference digital elevation model and the geocoded reference image such that each pixel of the geocoded reference image is associated with an elevation from the geocoded reference digital elevation model; transforming the synthetic 3-D model into a synthetic perspective image of the scene, the transforming based on a type of the sensor and the at least one sensor parameter; and registering the sensor image of the scene with the synthetic perspective image to geocode the sensor image using a mutual information model.

***Conclusion***
